Key Features

E-video

A series of videos based on the practical curriculum that enables learners to pick up core aspects of the corresponding practical subjects before their lessons

Induction Program (IP)

A comprehensive overview of the learning roadmap with CDC

Learner's Driver Competency Screening (LDCS)

Using technologically advanced telematics tools to measure learners' driving behaviour such as acceleration, braking and cornering

Vehicular Pre-Operative Check (VPC)

Learners are taught how to inspect both the interior and exterior of the car to enhance safety and efficiency before the start of the journey

Pre-Practical Test Enhancement Practice & Assessment (PEP)

PEP is designed to help learners improve their performance by better understanding their driving skills and preparing more effectively for the practical test

Auto Transmission Vehicle Lesson (ATV)

Manual transmission vehicle (MTV) learners are introduced to the differences in the controls and devices, features, handling and safety aspects of the MTV and ATV.
